Between Poplar and Vliet Sts.

-:- 412-414 FIFTH STREET
MILWAUKEE, WISCONSIN

D. N. Shoemaker

Armour's Big Crop Fertilizers

FERTILIZERS ARE PLANT FOOD CARRIERS

Nitrogen, referred to as Ammonia, is directly associated with the formation of leaves and stems in plants, promoting a quick and vigorous growth which is accompanied by a deep, rich green color of foliage—a sign of health and activity.

Phosphorus, known as Acid Phosphate or Phosphoric Acid, hastens germination and favors rapid development of young seedlings, increasing the root growth, thus giving the young plant a good start. The formation of grain and fruit begins sooner when applications of soluble phosphorus are freely made. Phosphorus fills out the grain and fruit, increasing the proportion of grain to straw.

Potassium, commonly called potash, has a marked influence upon the development of leaves and stems. When potash is lacking, stems are apt to be weak and brittle. Potash enables the plant to produce sugar and starch, and helps to plump and fill the grain. It is also necessary in developing the fleshy parts of fruit.

O. Machholz Wholesale List for 1927

All Previous Price Lists Are Hereby Cancelled

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

I HAVE again the pleasure of presenting to you my catalogue for the coming season, and hope you will be induced by the extremely low prices to favor me with your orders which shall have my careful and prompt attention.

All my seeds have been selected with the utmost care and attention, therefore I am sure of their superior quality. No complaint can be entertained unless made on receipt of the goods and invoice, and no warranty or guaranty is given either as to description, quality, productiveness or any other matter of any seeds I send you, nor will I be responsible for the quality or value of the crops produced therefrom. Nevertheless I will certainly pay attention to any founded complaint, but a restitution of any article can never exceed the amount charged for in the invoice.

Being able and ready to meet all respectable competition, I would be glad to be informed if you are offered any article lower than these prices, and in such cases, I will, if possible, give you other quotations.

A new and adequate Parcels Post law now applies to shipments of seeds, bulbs, tools, plants and garden supplies to all of the United States; packages are subject to a limit of maximum weight in the first and second zones of 50 lbs.; and in all other zones, third to eighth, of 20 lbs. The maximum size of a package is 72 inches for combined length and largest girth. Insurance will be effected only when asked for and remitted for as follows: Parcels to the value of \$25.00 or under for 5 cents; to the value of \$25.00 to \$50.00 for 10 cents. Postage must be remitted in addition to the price of seed.

**ALL ACCOUNTS ARE DUE AND PAYABLE ON JUNE 1ST
unless otherwise agreed upon.**

References as to quality of seeds sold by me: any of the leading market gardeners in the vicinity.

Respectfully,
O. MACHHOLZ.

ALL LEADING VARIETIES OF FLOWER SEEDS

All Orders Promptly and Carefully Executed

NOVELTIES

And What Their Growers Have to Say About Them

WISCONSIN HOLLANDER NO. 8 CABBAGE

Grown in Denmark from stock seed furnished by the University of Wisconsin. This Cabbage has been grown for two years, and has proven to be Yellow-Resistant.

CAULIFLOWER “Matchless”

This Cauliflower is of the Snowball type, but is a week earlier, and produces fine grained, snow white solid heads.

CAULIFLOWER “The Mountain”

This variety will mature a week later than Market Gardeners' Private Stock, but is considerably larger.

SPINACH Longstanding Bloomsdale

Longstanding Bloomsdale is a new “Hermaphrodite” which has been produced by an entirely new process applied to Spinach breeding. The leaves are of a deep dark green, glossy and much crumpled, and is noted for its slowness in running to seed.

TOMATO “Marglobe”

Marglobe's strong, vigorous vines produce large, beautifully shaped scarlet fruit, even in unfavorable conditions. It is resistant to Nail-head Rust and Fusarium Wilt.

COTTON

Buy your Cotton Twine now for the coming season:

4 ply in $\frac{1}{2}$ balls at 26c per lb.
6 ply in $\frac{1}{2}$ balls at 26c per lb.

LEGGETT'S

"Champion" Dusting Machine

Reg. U. S. Pat. Office

FOR DISTRIBUTING

Dry Insecticides and Fungicides

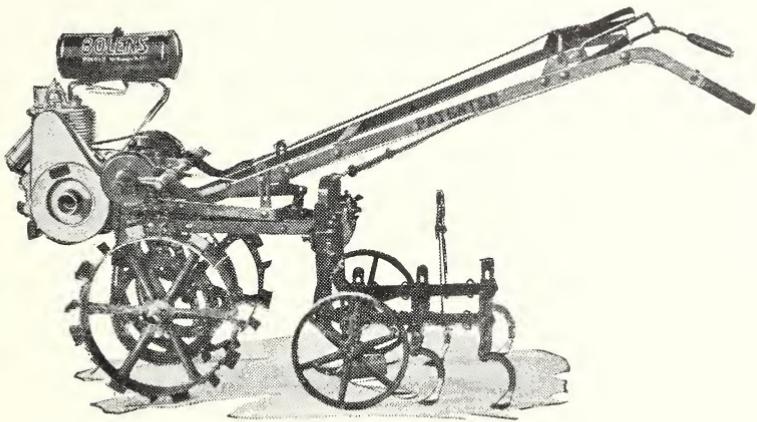

Paris Green, Hellebore, Sulphure, Lime, Dry Bordeaux Mixture, Bordeaux and Paris Green Compound, Tobacco Dust, Etc.

**In general use many years. Thousands sold annually.
Adjusted to any width of row, wide or narrow planting.**

Will green two rows of Potatoes
at once as fast as a man walks.

**The Length of the CHAMPION is Such That the Poison Is
Kept at a Safe Distance from the Operator**

Here is a garden tractor that we can guarantee to our friends. We have sold many BOLENS outfits to Milwaukee County gardeners and they report that the tractor does fine work, is easy to operate and makes money every time it is in the field.

BOLENS is different from other garden tractors,—patented arched axle, tool control instant hitches, power turn, etc., attachments for seeding, cultivating and lawn mowing.
